### ***Advanced solutions for aquatic life!***

The Kent Marine® brand continues to provide expert supplements and support accessories for the aquatic hobbyist. Kent Marine is committed to providing effective ways to keep beautiful, healthy aquariums. For over 25 years, we have been offering solutions that help the hobbyist properly care for and nurture their fresh and saltwater habitats. Look to Kent Marine® products for success in your freshwater or marine aquatic environment.

Volitan Lionfish  
(*Pterois volitans*)

# Calcium

One of the most important components of maintaining a healthy reef or marine environment is calcium. Found naturally in seawater, corals and many invertebrates need calcium to build skeletal structures. Kent Marine® Calcium supplements provide an array of application methods to maintain this critical element in enclosed reef systems.

**Liquid Calcium** is an easy-to-dose liquid formulation that provides the essential calcium that corals and many invertebrates require.

Liquid Calcium		Made in 
ITEM NO.	SIZE	
00016	8 oz (236 mL)	
00017	16 oz (474 mL)	
00018	64 oz (1.9 L)	

**Kalkwasser Mix** provides supplemental calcium to reef inhabitants while promoting growth of purple, pink, and green calcareous algae. This application requires additional effort to prepare and dose via the drip method, but is proven to provide sustainable long-term results.

Kalkwasser Mix		Made in 
ITEM NO.	SIZE	
00001	3.5 oz (100g)	
00002	7.9 oz (225 g)	
00003	15.9 oz (450 g)	

**Turbo-Calcium** provides supplemental calcium to reef inhabitants such as corals, snails, hard tube worms and clams and promotes growth of purple, pink, and green calcareous algae.

Turbo-Calcium		Made in 
ITEM NO.	SIZE	
00048	7 oz (200 g)	
00049	14 oz (400 g)	
00050	1.7 lbs (800 g) 1 qt	

**Liquid Calcium Reactor** provides the same results as costly calcium reactor systems without the investment. Will raise aquarium concentrations of calcium, magnesium, strontium, trace minerals and carbonates.

Liquid Calcium Reactor		Made in 
ITEM NO.	SIZE	
00667	16 oz (473 mL)	
00668	64 oz (1.9 L)	

Giant Clam  
(Tridacna crocea)

## Buffers & pH Control (Dry)

Since fish, coral and other invertebrates did not start out in aquariums, but rather are native to different regions throughout the world, the water parameters they thrive in vary. Kent Marine® Buffers and pH Control products help to pinpoint and maintain proper pH levels for almost any aquarium setting.

**pH Control Minus** safely lowers aquarium pH. When used in conjunction with Kent Marine® pH Stable, it provides a stable, buffered, acidic pH in freshwater systems.

**pH Control Plus** safely increases pH of tap or aquarium water. Works in fresh, alkaline fresh, brackish or saltwater aquariums.

pH Control	
ITEM NO.	SIZE
<b>pH Control Minus</b>	
00313	3.5 oz (100 g)
<b>pH Control Plus</b>	
00318	3.5 oz (100 g)

**Superbuffer-dKH** raises and stabilizes pH, prevents pH drop and builds KH. Formulated to adjust the pH of saltwater aquariums between 8.0 and 8.3. Mixes with little or no cloudiness or precipitation.

Superbuffer-dKH	
ITEM NO.	SIZE
00004	8.8 oz (250 g)
00005	1.1 lbs (500 g)
00006	2.2 lbs (1 kg)
00046	8.8 lbs (4 kg)
00310	44 lbs (20 kg)

## Buffers & pH Control (Liquid)

**Pro Buffer dKH** is an easy-to-use liquid formula that raises alkalinity and automatically controls pH in any marine aquarium. Formulated to adjust the pH of saltwater aquariums between 8.0 and 8.3.

Pro Buffer dKH	
ITEM NO.	SIZE
00655	8 oz (236 mL)
00508	16 oz (474 mL)
00509	64 oz (1.9 L)

**Nano Reef Parts A & B** provide important major, minor, and trace elements in the proper ratios and balances them with a buffer to increase alkalinity and maintain a stable pH in 8 to 40 gallon marine systems.

Nano Reef Parts A & B	
ITEM NO.	SIZE
00857	8 oz (236 mL)
00858	16 oz (474 mL)

**Tech CB Part A & B** is an ionically balanced, complete calcium and alkalinity control system for all marine aquariums. When used together they will raise the calcium and buffer levels in the system.

Tech CB Part A & B	
ITEM NO.	SIZE
<b>Part A</b>	
00420	16 oz (474 mL)
00421	64 oz (1.9 L)
00422	1 gal (3.8 L)
<b>Part B</b>	
00424	16 oz (474 mL)
00425	64 oz (1.9 L)
00426	1 gal (3.8 L)

## Coral Nutrition

Providing an array of nutritional sources for invertebrates and planktivorous fish is an essential element in simulating their natural aquatic environment. Kent Marine® Coral Nutrition products provide the necessary variety of plankton, zooplankton, marine lipids, spirulina and kelp for enhanced health, growth and coloration.

**Coral Accel** provides complex proteins and amino acids necessary to spur coral tissue growth. Ideal nutrition when fragmenting small-polyped stony corals and propagating soft corals, octocorals and colonial anemones.

Coral Accel		Made in 
ITEM NO.	SIZE	
00558	8 oz (236 mL)	
00559	16 oz (474 mL)	
00560	64 oz (1.9 L)	

**PhytoPlex** is a complex of aqua-cultured, naturally occurring phytoplankton that provides necessary proteins, carbohydrates, and lipids for marine invertebrates. Containing *Nannochloropsis*, *Tetraselmis* and *Isochrysis* sp. Tahitian phytoplankton ranging in size from 2 to 15 microns.

PhytoPlex		Made in 
ITEM NO.	SIZE	
00554	8 oz (236 mL)	
00555	16 oz (474 mL)	
00556	64 oz (1.9 L)	

**PhytoMax** is a concentrated suspension of *Nannochloropsis*, Tahitian *Isochrysis*, and *Tetraselmis* phytoplankton from 2 to 15 microns (1 billion cells per drop). Rich in EPA, DHA and amino acids for maximum benefit to marine invertebrates.

PhytoMax		Made in 
ITEM NO.	SIZE	
00897	1 oz (30 mL)	

**ChromaPlex** is a unique blend of aqua-cultured, naturally occurring phytoplankton that has been found to increase coloration in filter-feeding marine invertebrates. May also be used to supplement and fortify live foods. Particle size from 5 to 25 microns.

ChromaPlex		Made in 
ITEM NO.	SIZE	
00671	8 oz (236 mL)	
00672	16 oz (474 mL)	

**ChromaMax** is a concentrated blend of aqua-cultured, naturally occurring phytoplankton that has been found to increase coloration in filter-feeding marine invertebrates. Rich in protein, omega-3 and omega-6 fatty acids with particle sizes from 5 to 25 microns.

ChromaMax		Made in 
ITEM NO.	SIZE	
00895	1 oz (30 mL)	

**MicroVert** is a nutritionally balanced diet for corals, sponges, anemones, gorgonians, feather dusters and other fine filter feeders. Rich in vitamins and natural minerals from spirulina and kelp.

MicroVert		Made in 
ITEM NO.	SIZE	
00407	8 oz (236 mL)	
00408	16 oz (474 mL)	
00409	64 oz (1.9 L)	

## Nutritional Supplements

Sometimes fish and corals need a bit more to make food more enticing or to provide increased nutrition. Kent Marine® Nutritional Supplements can be either applied directly in the water or as a food soak to fortify live and frozen foods. These methods make foods more appealing and provide a nutritional boost that a daily diet may not provide.

**Marine C** aids in enhancing the immune systems of fish and invertebrates. Also helps to facilitate the metabolism of fatty acids and stimulates the repair of damaged tissue caused by coral propagation and bacterial/parasitic infestations.

Marine C		Made in  USA
ITEM NO.	SIZE	
00675	1 oz (30 mL)	
00676	4 oz (118 mL)	
00677	8 oz (236 mL)	

**Zoecon** prevents head and lateral line erosion and contains natural immune system stimulants. Provides the essential marine omega-3 fatty acids EPA and DHA and is ideal for fortify food for juvenile and adult fish and invertebrates.

Zoecon		Made in  USA
ITEM NO.	SIZE	
00603	2 oz (60 mL)	
00604	4 oz (118 mL)	

**Garlic Xtreme** provides a nutritional, natural attractant to help finicky eaters to take food. Contains no artificial ingredients or steroids.

Garlic Xtreme		Made in  USA
ITEM NO.	SIZE	
00657	1 oz (30 mL)	
00658	4 oz (118 mL)	

**Zoe** contains high dosages of natural marine algae, such as spirulina, to provide essential vitamins and amino acids not available in dry, frozen, or even live food sources. Zoe (pronounced zoay) is the Greek word for life.

Zoe		Made in  USA
ITEM NO.	SIZE	
00261	4 oz (118 mL)	
00262	8 oz (236 mL)	
00264	64 oz (1.9 L)	

Mandarin Dragonet  
(*Synchiropus picturatus*)

## Reverse Osmosis (RO) Supplements

When building the perfect aquatic environment, using reverse osmosis water is a good place to start. Unfortunately, this process removes some of the things that are actually good for aquatic life. Kent Marine® RO products replace those beneficial dissolved solids and returns water to its natural chemistry.

*RO Right is a concentrated dry formulation of dissolved solids and balanced electrolytes that returns the natural water chemistry to reverse osmosis, distilled or deionized water.*

RO Right	
ITEM NO.	SIZE
00238	8.8 oz (250 g)
00240	2.2 lbs (1 kg)

*Liquid RO Right is an easy to use liquid formulation of dissolved solids and a balanced electrolyte system that returns the natural water chemistry to reverse osmosis, distilled or deionized water.*

Liquid RO Right	
ITEM NO.	SIZE
00590	8 oz (236 mL)
00591	16 oz (474 mL)
00592	64 oz (1.9 L)

## Vitamin & Mineral Supplements

Natural seawater contains vitamins and minerals that are essential to aquatic life. These beneficial elements are depleted in enclosed aquarium systems by fish, plants and filtration. Kent Marine® Vitamin & Mineral Supplements aid in replenishing these necessary components for healthy aquatic life and maintaining proper water parameters.

*Coral-Vite provides vitamins, exotic trace minerals and complex nutrients for health, vigor, and to stimulate growth in corals, anemones, gorgonians, and desirable marine algae. Phosphate, nitrate and gluconate free.*

Coral-Vite	
ITEM NO.	SIZE
00040	8 oz (236 mL)
00041	16 oz (474 mL)
00042	64 oz (1.9 L)

*Tech M Magnesium supplement is an ionically balanced product that safely raises the magnesium level in any marine system. Magnesium plays an important role in maintaining the calcium concentration in reef aquaria.*

Tech M Magnesium	
ITEM NO.	SIZE
00798	8 oz (236 mL)
00412	16 oz (474 mL)
00413	64 oz (1.9 L)
00411	1 gal (3.8 L)

## Vitamin & Mineral Supplements (continued)

**Essential Elements** replaces biologically important trace minerals necessary to a healthy marine aquarium. Phosphate, nitrate and gluconate free.

Essential Elements 	
ITEM NO.	SIZE
00024	8 oz (236 mL)
00025	16 oz (474 mL)
00026	64 oz (1.9 L)

**Iron & Manganese** supplements iron, manganese, potassium and other micronutrients to spur saltwater macro-algae and freshwater plant growth. Does not contain ingredients that cause undesirable algae growth.

Iron & Manganese 	
ITEM NO.	SIZE
00010	8 oz (236 mL)
00011	16 oz (474 mL)

**Strontium & Molybdenum** provides these elements needed for proper growth and health of hard and soft corals. Corals traditionally respond by staying open longer - helps tissue adhesion to skeleton.

Strontium & Molybdenum 	
ITEM NO.	SIZE
00013	8 oz (236 mL)
00014	16 oz (474 mL)
00015	64 oz (1.9 L)

**Purple Tech** stimulates the growth of purple coralline and green calcareous macro-algae. Provides specific concentrations of calcium, magnesium, strontium, trace minerals and carbonates required by coralline algae and stony corals.

Purple Tech 	
ITEM NO.	SIZE
00800	8 oz (236 mL)
00801	16 oz (474 mL)
00799	64 oz (1.9 L)

**Turbo-Strontium** provides strontium for lush growth of purple, pink and green calcareous algae, snails, hard tube worms and clams. Corals may respond by staying attached to skeletons and remaining open longer.

Turbo-Strontium 	
ITEM NO.	SIZE
00309	10.5 oz (300 g)

Pineapple Coral  
(*Blastomussa wellsii*)

## Filter Media

When maintaining an enclosed aquarium system, pollutants will need to be removed. Kent Marine® Filter Media products provide great solutions for filtering and removing compounds that can impact the health and beauty of the aquarium environment.

**Nitrogen Sponge** is a granular zeolitic medium that directly adsorbs ammonia in freshwater and fosters anaerobic bacteria growth to reduce nitrate levels in both marine and freshwater aquariums.

Nitrogen Sponge		Made in 
ITEM NO.	SIZE	
00054	1.7 lbs (800 g) 1 qt	
00037	3.3 lbs (1.5 kg) 2 qt	
00038	7 lbs (3.2 kg) 1 gal	

**Phosphate Sponge** quickly adsorbs phosphates in fresh and saltwater aquariums. Beads are cracked to expose more surface area and increase efficiency. Will not release soluble aluminum compounds into the aquarium.

Phosphate Sponge		Made in 
ITEM NO.	SIZE	
00058	1.2 lbs (544 g) 1 qt	
00059	2.3 lbs (1043 g) 2 qt	
00036	25 lbs (11.3 kg) 5 gal	
00023	40 lbs (Box)	

**Organic Adsorption Resin** removes organic pollutants, stain and entrained toxic gases without removing trace elements. Greatly reduces or eliminates the need for carbon use.

Organic Adsorption Resin		Made in 
ITEM NO.	SIZE	
00251	8 oz (236 mL)	

**Power-Phos** is the most effective means of removing phosphate from aquarium water. More efficient than similar dry media and will not release phosphate back in the water when exhausted.

Power-Phos		Made in 
ITEM NO.	SIZE	
00885	5.2 oz (150 g)	
00886	10.5 oz (300 g)	

**Reef Carbon** contains essential activated carbon for use in marine and freshwater aquariums. Contains a fine coal-based carbon to remove organic pollutants, stain and entrained toxic gases.

Reef Carbon		Made in 
ITEM NO.	SIZE	
00027	1 lb (450 g) 1 qt	
00028	1.9 lbs (900 g) 2 qt	
00029	4.1 lbs (1.9 kg) 1 gal	
00030	7 lbs (3.2 kg) 2 gal	
00031	15 lbs (6.8 kg) 5 gal	
00681	44 lbs (Box)	

## Cichlid

Cichlids have various water chemistry needs, depending upon their origins. The Kent Marine® Cichlid products provide essential minerals and aid in creating water parameters specific to their natural environment.

**Cichlid Essential** replaces important trace minerals that are used by fish and plants or removed unintentionally through carbon filtration. Works well with fish and plants whose native waters are hard and have a pH above 7.8.

Cichlid Essential		Made in  USA
ITEM NO.	SIZE	
00235	8 oz (236 mL)	
00236	16 oz (473 mL)	

**Cichlid Buffer** builds carbonate hardness, raises and stabilizes pH and prevents pH drop. Works well with fish and plants whose native waters are hard and have a pH above 7.8. Phosphate and nitrate free.

Cichlid Buffer		Made in  USA
ITEM NO.	SIZE	
00231	8.8 oz (250 g)	
00232	1.1 lbs (500 g)	

**Cichlid Chemistry** is specially formulated to provide natural water chemistry for African Cichlids and other Rift Lake fish without significantly raising pH. Phosphate and nitrate free.

Cichlid Chemistry		Made in  USA
ITEM NO.	SIZE	
00228	1.1 lbs (500 g)	

## Freshwater

From providing essential minerals to simulating natural water conditions, the Kent Marine® group of Freshwater products helps to provide balance to the array of complex freshwater environments.

**Black Water Expert** contains natural humic and tannic acids that simulate water conditions found in the Amazon region of South America, Southeast Asia and Western Africa. Encourages spawning and aids in the hatching process.

Black Water Expert		Made in  USA
ITEM NO.	SIZE	
00385	8 oz (236 mL)	
00386	16 oz (473 mL)	

Siamese Fighting Fish  
(*Betta splendens*)

**Betta Bowl Essential** is specifically formulated for smaller bowls and aquariums. Instantly conditions tap water for fish and plants by neutralizing harmful chlorine, chloramines, and ammonia.

Betta Bowl Essential		Made in  USA
ITEM NO.	SIZE	
00599	2 oz (60 mL)	

**Discus Essential** contains important trace minerals found in lakes, streams and rivers to promote color, overall health and vigor of fish. Can be used for all freshwater fish.

Discus Essential		Made in  USA
ITEM NO.	SIZE	
00242	8 oz (236 mL)	
00243	16 oz (473 mL)	

## Cleaning Solutions

From dealing with suspended organic matter to cleaning inside and outside your aquarium, this group of products aid in resolving issues that every aquarist will face while in the hobby.

**Marine Tank Clarifier** is pH-balanced and works by attaching to unsightly particulate matter for easy removal through filtration. Does not contain nitrates or phosphates.

Marine Tank Clarifier		Made in 
ITEM NO.	SIZE	
00940	8 oz (236 mL)	
00941	16 oz (473 mL)	

**Salt Creep Eliminator** protects equipment by inhibiting salt adhesion and neutralizing its corrosive action. Nontoxic formula specifically developed for use around aquarium environments.

Salt Creep Eliminator		Made in 
ITEM NO.	SIZE	
00943	8 oz (236 mL)	

**Acrylic/Glass Cleaner-Polisher** is a nontoxic anti-static formula that cleans glass and acrylic to a sparkling shine. Helps reduce the appearance of minor scratches on acrylic aquariums.

Acrylic/Glass Cleaner-Polisher		Made in 
ITEM NO.	SIZE	
00944	8 oz (236 mL)	

**Poly-Ox** oxidizes harmful dissolved and suspended organic matter for easy filtration removal. Safe to use in both freshwater and marine aquariums.

Poly-Ox		Made in 
ITEM NO.	SIZE	
00294	8 oz (236 mL)	

## Iodide

Iodide is naturally present in seawater and is usually supplemented in sea salt mixes, but is rapidly depleted in enclosed systems. Kent Marine® Iodide products provide this essential element in three different formulations to fit any aquarium application.

**Iodide** replaces iodide needed for proper growth and health of invertebrates and macro-algae. Contains a safe form of iodide, which will not destroy system bacteria.

Iodide		Made in 
ITEM NO.	SIZE	
00007	8 oz (236 mL)	
00008	16 oz (474 mL)	
00009	64 oz (1.9 L)	

Red Fire Shrimp  
(*Lysmata debellus*)

**Lugol's Solution** provides a key nutrient for marine invertebrates and fishes while promoting coral polyp expansion. Improves colorations and prevents bleaching of corals. Can be used as a dip for stony, soft or leather corals.

Lugol's Solution		Made in 
ITEM NO.	SIZE	
00610	1 oz (30 mL)	

**Tech I** slowly releases free iodide and time-released iodide for sustained availability to invertebrates. Assists hard corals and helps prevent bleaching.

Tech I		Made in 
ITEM NO.	SIZE	
00395	8 oz (236 mL)	
00396	16 oz (474 mL)	
00397	64 oz (1.9 L)	

## Pro Series

Pro Series products are concentrated formulations for various aquatic applications. From detoxifying to supplementing and clearing to protecting, these unique products are for the true aquatic hobbyist.

**Pro-Clear Freshwater Clarifier** produces and maintains crystal clear aquarium water by attracting dirt particles and creating debris clumps that are easy to filter out or that will settle to the aquarium bottom.

Pro-Clear Freshwater Clarifier		Made in  USA
ITEM NO.	SIZE	
00390	4 oz (118 mL)	
00391	8 oz (236 mL)	
00392	16 oz (473 mL)	

**Pro-Ammonia Detox** detoxifies elevated levels of ammonia, nitrite and nitrate in freshwater and marine aquariums. Also effective in neutralizing chlorine and chloramines.

Pro-Ammonia Detox		Made in  USA
ITEM NO.	SIZE	
00287	8 oz (236 mL)	
00288	16 oz (473 mL)	

**Pro-Clear Marine Clarifier** clears cloudy water caused by water changes, chemical reactions and disturbed detritus. Quickly attracts particles so they can be easily filtered out or will settle to the aquarium bottom.

Pro-Clear Marine Clarifier		Made in  USA
ITEM NO.	SIZE	
00399	8 oz (236 mL)	
00400	16 oz (473 mL)	

**Pro-Plant** provides nitrogen, magnesium and micronutrients for lush freshwater plant growth. Phosphate free.

Pro-Plant		Made in  USA
ITEM NO.	SIZE	
00550	8 oz (236 mL)	
00551	16 oz (473 mL)	
00552	64 oz (1.9 L)	

**Pro-Culture** is an algal culture formula based on Guillard's 1975 F/2 algae food formula that provides nitrogen, vitamins and essential trace minerals for improved growth rates in freshwater and marine phytoplankton.

Pro-Culture		Made in  USA
ITEM NO.	SIZE	
<b>Part A</b>		
00416	5 gal (18.9 L)	
<b>Part B</b>		
00418	5 gal (18.9 L)	

## Starter Kits

**Marine Starter Kit** A perfect starter kit for marine aquariums. Includes the following Kent Marine® products in 4 oz sizes: Essential Elements, Pro-Ammonia Detox, Pro Buffer dKH.

Marine Starter Kit	
ITEM NO.	SIZE
00540	—

**Reef Starter Kit** A perfect starter kit for reef aquariums. Includes the following Kent Marine® products in 4 oz sizes: Iodide, Strontium & Molybdenum, Liquid Calcium.

Reef Starter Kit	
ITEM NO.	SIZE
00541	—

## AquaDose

The Kent Marine® AquaDose is an economical, no-mess solution to dosing your system. With an adjustable gravity drip system, the AquaDose makes dosing your favorite Kent Marine® products simple. Dose Kalkwasser Mix, Superbuffer-dKH or any other product in the Kent Marine® line. Can be used in saltwater, freshwater, and any pond or water garden application.

AquaDose	
ITEM NO.	SIZE
00428	2.5 gal

## Cyclone Media Reactor

The Kent Marine® Cyclone Media Reactor is a multi-purpose filter designed to increase the water to media interaction for most efficient filtering. The cyclone generator creates a vortex of water flowing throughout the reaction chamber. This water movement keeps media in motion and eliminates dead spots. Each unit has a twist on/off top for easy maintenance and sealing, an off-center reaction chamber intake tube for simplified media insertion and a 98 gph pump. Can be used with all media types like Phosphate Sponge, Power Phos, Reef Carbon, Nitrate Sponge, Organic Adsorption Resin and plastic biopellet-type products.

### Cyclone Media Reactor

ITEM NO.	SIZE
00965	—

## Sea Squirt

The Kent Marine® Sea Squirt makes it possible to target-feed liquid supplements to corals or other aquatic animals so they receive the nutrients for proper health and growth. The Sea Squirt features a 21" graduated tube that extends to 35" for deep aquariums and hard-to-reach areas. A unique probe is included to feed solid foods to anemones, eels, lionfish, and other organisms that require a careful approach. Disassembles for easy cleanup.

### Sea Squirt

ITEM NO.	SIZE
00856	Extends to 35"

## Float Valve Kit

Contains the Kent Marine® float valve and also a pressure solenoid to allow an RO to shut down water production after the reservoir reaches the desired level.

This kit works from pressure only—no electricity required. Can be used with all ROs except dual membrane systems and commercial RO units.

Not recommended for level control in aquariums.

Float Valve Kit	
ITEM NO.	SIZE
00079	—

## RO Cartridges & Membranes

**Solid Carbon Block** pre-filter rated to remove up to 2ppm chlorine for 3,750 gallons.

Solid Carbon Block	
ITEM NO.	SIZE
00125	1 Cartridge

**Micron Sediment Filter Cartridges**—fiber wound.

Micron Sediment Filter Cartridge	
ITEM NO.	SIZE
00121	1 Cartridge

## RO Cartridges & Membranes (continued)

Reverse osmosis replacement TFC, Hi-S, and Hi-F membranes.

RO Replacement Membranes	
ITEM NO.	SIZE
00119	24 GPD
00120	50 GPD
00151	35 GPD
00203	60 GPD

Deionization Mixed Bed Resin Cartridge	
ITEM NO.	SIZE
00126	—

Deionization cartridge with high silicate removal resin.

Deionization High Silicate Resin Cartridge	
ITEM NO.	SIZE
00199	—

Replacement Canister	
ITEM NO.	SIZE
00116	10"

# Pro-Scraper II

The Kent Marine® Pro-Scraper II comes packaged to clearly show what is included with each unit. Includes all three blade styles for a variety of cleaning jobs.

Pro-Scraper II	
ITEM NO.	SIZE
00975	Short
00976	12"
00977	24"
00978	16-24"
00979	24-36"

The Kent Marine® Pro-Scraper II Replacement Blades come in 3 and 10 packs for convenience of having more on hand when performing that big cleaning job.

Pro-Scraper II Replacement Blades	
ITEM NO.	SIZE
<b>Stainless Steel</b>	
00980	3 Pack
00981	10 Pack
<b>Plastic</b>	
00982	3 Pack
00983	10 Pack
<b>Pads</b>	
00984	3 Pack

# Reef Salt

Reef Salt is the perfect foundation for demanding enclosed reef aquariums. Compared to natural seawater, Kent Marine® Reef Salt contains elevated levels of Calcium, Magnesium, Strontium and other elements to provide the essentials required for proper coral growth, skeletal structure development and reef vitality. Only the purest ingredients are chosen for their exceptional solubility and consistency. Micro-processing ensures that every bag will consistently produce a mixture that is pH-balanced and contains a uniform blend of major, minor and trace elements.

Reef Salt	
ITEM NO.	SIZE
02112	Pouch 10 gal
00519	Pouch 25 gal
00044	Jug 50 gal
02111	Bucket 200 gal
02113	Box 200 gal

# Hydrometer

Easy-to-read and precise to 0.001 specific gravity units. Water is gently diverted to bottom to avoid bubbles. It is designed to give temperature-corrected readings in warm water aquariums (68° - 85° F/20° - 30° C).

Hydrometer	
ITEM NO.	SIZE
02120	—
